

Complete Animal Hygiene & Sanitization Solutions

Poultry Guard, a C&S Ag Services product, supports integrators and growers with proven **litter amendment** solutions, hands-on application support and ammonia control strategies designed to improve air quality and flock performance.

WATER TREATMENT SERVICES

C&S Ag Water Treatment Services deliver customized in-house water treatment programs designed to improve water quality, protect drinker systems, and support bird health through sanitation, descaling, and preventative maintenance solutions.

INSECTICIDES & RODENTICIDES

C&S Ag Pest Management Services provide comprehensive insect and rodent control programs tailored to poultry operations, including product supply, application guidance, and proactive monitoring to protect bird health and facility integrity.

WHO ARE WE?

C&S Ag Services is a full-service agricultural solutions provider supporting poultry and livestock operations nationwide. Through Poultry Guard litter treatments, in-house water management, and comprehensive pest control programs, we deliver integrated solutions that protect bird health and improve performance. Backed by manufacturing expertise, dependable logistics, and hands-on field support, we partner with growers and integrators to drive consistent, measurable results.
